

## REMARKS

A substitute complete paper copy (25 pages) of the Sequence Listing is submitted to replace the three-page incomplete paper copy of the Sequence Listing submitted together with the application on December 22, 2005. It is noted that the substitute paper copy of the Sequence Listing is identical to that originally submitted with "Declaration Regarding the Sequence Listing" on December 22, 2005 and includes no new matter. Additionally, Applicants have noted that the Raw Sequence Listing Error Report indicates the original copy contains informalities, for example, information about numeric identifiers <220>. Such informalities have been corrected in the substitute paper copy.

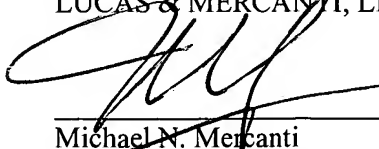

Applicants also submit a copy of the Sequence Listing in Computer Readable Form (CRF) to replace the copy in CRF submitted on December 22, 2005. The content of the Sequence Listing information recorded in the substitute Computer Readable Form copy is identical to the written (on paper) sequence listing and includes no new matter.

Applicants respectfully request both the substitute paper copy of the Sequence Listing and substitute Computer Readable Form copy of the Sequence Listing to be included in the application.

The present application is believed to be complete in all respects and in condition for favorable consideration.

Respectfully submitted,

LUCAS & MERCANTI, LLP
